-----------------	--	--

Washington, DC — Formtek, Inc., a leading provider of Enterprise Content Management (ECM) software and implementation services, today announced that its UK-based Technology Alliance Partner, LSC Group, would begin to offer Formtek Enterprise Content Management Software on a Subscription Service basis.

LSC Group has integrated and implemented Formtek products on mission critical shared data environment initiatives for the UK Ministry of Defense and has also used the **Formtek | Orion** solution to meet the needs of an expanding digital library environment for a major University system, providing online access to digital library assets for remote distance learning, research and examination revision.

The three-year partnership between Formtek, Inc. and LSC Group has expanded into new areas, including cooperative development. With this latest expansion, LSC will host the Formtek Enterprise Content Management software and offer its customers the right to use the licensed software on a Subscription Service basis. Through this service, customers have the option to sign up with as little as one month's notice.

"This is an exciting time for both our organizations," commented LSC's Chief Executive and Managing Director, Martin Palmer. "We have had a successful relationship with Formtek for over three years, and we look forward to expanding that relationship into new areas. We believe that there is great market demand for a shared data environment offering on a monthly service provision basis in both the Government and Commercial arenas. This Agreement with Formtek allows us to meet that demand with a very affordable offering."

Added Gary Mann, CEO of Formtek, “LSC Group has been an excellent strategic partner of Formtek, and we highly value our relationship with them. I expect our partnership with LSC to grow and strengthen as we expand the relationship into a number of new areas. The **Formtek | Orion** subscription service offering, in particular, is unique in the marketplace and of great benefit to potential customers. I expect LSC to have great success with it.”

About LSC Group. LSC Group was founded over 10 years ago to offer consultancy support and software tools to the fast growing ILS community and today is the leading independent ILS dedicated company in Europe. LSC has extensive experience and a successful track record implementing and supporting complex asset management, logistics and information management solutions in both the Defense and Commercial arenas.
