**Washington, DC**--Formtek Inc., a leading provider of Enterprise Content Management (ECM) software and implementation services, today released localized versions of its Formtek | Orion™ and Formtek | Orion 5 Desktop Documents™ products for the Japanese market. The Formtek products provide users with an increased web access capability and enhanced formal review processes with an updated and redesigned Collaboration product. These products will significantly increase productivity by enhancing a user's ability to exchange and reuse information with other users, both inside and outside a company. The localized release also includes Formtek's newest product, Formtek | Orion 5 Desktop Documents, which seamlessly integrates the Formtek | Orion ECM core capabilities with the popular Microsoft® Office applications including many of the Microsoft Office productivity applications, such as Word, Excel, PowerPoint, and Outlook. This integration provides Microsoft Office users access to Formtek | Orion ECM through the Microsoft Office applications.

"This product release for the Japanese market demonstrates our commitment to supporting our clients and prestigious partners in Japan," said Richard D'Adamo, Formtek's Director of Product Management. "Formtek has served this market for over ten years and is committed to providing our clients with modernized capabilities to address the growing corporate concern of managing structured and unstructured data from the Internet and the desktop."

The latest release of the Formtek | Orion ECM products includes a number of enhancements and ensures a common architecture in which supported vertical applications, such as Collaboration, operate seamlessly. This enables effective information reuse and facilitates information lifecycle management. Formtek | Orion 5 Desktop Documents extends the library

-more-

services of the Formtek | Orion ECM product to the desktop and provides a secure repository, which allows companies to manage and protect unsecured corporate assets that currently reside on the desktop.
