

# ANNOUNCEMENT

## Version Release

### November 2010

**Formtek releases version 5.4 of the Formtek | Orion 5 product suite for Windows® and Solaris™. This release provides a number of significant new and enhanced capabilities, including:**

- A new Administration API module that provides a Java interface for programmatically performing common system administration functions such as managing Orion users, groups, and security ACLs, plus Java test clients to manage Active Directory® users in Orion
- Improved password encryption and configurable password policies to strengthen system security
- A file encryption option to improve the security of files in Orion volumes
- Enhanced LDAP user authentication
- Firefox® browser support for Access and Administration
- Transaction enhancements for improved auditing
- A concurrent user licensing mechanism

**This release includes the following products (available in both English and Traditional Chinese, except where noted):**

- Formtek | Orion 5 Foundation Server, which includes:
  - Formtek | Orion 5 Orion Vault
  - Formtek | Orion 5 Administration
  - Formtek | Orion 5 Command Server
  - Formtek | Orion 5 License Server (new for concurrent user licensing)
  - Formtek | Orion 5 Storage Server
- Formtek | Orion 5 Access
- Formtek | Orion 5 SDK Administration API (available in English only)
- Formtek | Orion 5 SDK Pure Java API (also available in English on Linux)
- Formtek | Orion 5 SDK Web Services
