Records Management Webinar

Formtek Delivers Records Management Webinar

On October 5, 2010, Formtek's Chief Technology Officer, Dick Weisinger, presented a webinar entitled: *Managing Corporate Records - The What, Why, When, and How*. The webinar, sponsored by Alfresco, was attended by well over 100 individuals. A recording of the webinar can be accessed from [Formtek's web site](#).

Given increased government regulation and compliance requirements, electronic Records Management (RM) has become increasingly important to companies of all sizes. Through a combination of presentation and live demonstration of six RM scenarios, the webinar addressed questions such as:

- What is Records Management?
- Why is it important?
- When and how do I apply RM principals to my Corporate Records?
