Walnut Creek, CA--Formtek Inc., a leading provider of Enterprise Content Management (ECM) software and implementation services, announced today that it has an agreement with Spicer Corporation to integrate Spicer Corporation's Image a•X™ product, further enabling the Formtek | Orion™ Enterprise Content Management system to provide browser-based universal viewing capabilities for virtually any electronic document stored in the Formtek secure repository. The Image a•X integration allows Formtek software to support the viewing of files from more than 200 file formats without the need of the native authoring application.

Running as a browser plug-in of nearly the entire viewing feature set of Spicer's flagship product, Imagenation®, Image a•X seamlessly integrates the display of both simple and complex file formats alongside Formtek's search interface. This allows for rapid browsing of data across many different file types, including text documents, vector graphics, raster images, Microsoft Office and PDF formats, and 2D and 3D CAD files. "Users can easily and rapidly scroll through content and document data by using intuitive "next" and "previous" commands," said Dick Weisinger, Formtek's Chief Technologist. "The tight integration of the display of search result metadata with file viewing means fewer clicks for users, quicker access to data, and overall higher productivity", said Mr. Weisinger.

"Formtek | Orion enables the secure management and dissemination of information throughout the enterprise," noted Tony Prilesnik, Imagenation Product Manager. "Image a•X integrated with Formtek | Orion eliminates the need for users to have the native authoring applications for viewing the many file formats that may be used in the enterprise. Together, Spicer Universal

viewing and Formtek | Orion truly serve the entire enterprise – there are no longer any restrictions on being able to view a particular type of managed data.”

For a demonstration of the new Formtek | Orion 5 Access integration with Image a•X, contact Formtek at sales@formtek.com or 925.658.0910.

About Spicer Corporation. Spicer Corporation is a worldwide supplier of universal viewing solutions that enable the visual access, collaborative review, and distribution of data throughout an organization and with business partners. With Spicer's interoperable desktop and Web solutions, Imagenation®, ViewCafé®, Image a•X™ and DocuJet™, users can view, mark up, print and edit over 200 industry-standard file formats including 2D/3D CAD, raster, vector, hybrid, and office formats.
