Walnut Creek, CA -- Formtek Inc., a leading provider of Enterprise Content Management (ECM) software and implementation services, announced today that the use of Formtek | Orion™ at Lockheed Martin Systems Integration – Owego will be expanded to support new business opportunities, including the US101 helicopter program, recently selected by the U.S. Navy to become the new “Marine One” Presidential Helicopter.

The Formtek | Orion software suite provides Lockheed Martin Systems Integration – Owego, as well as its suppliers, partners and customers, with Product Data Management and Collaboration capabilities.

“Our software was first implemented by Lockheed Martin Systems Integration – Owego in 1997 in support of the Global Combat Support System program for the U.S. Air Force (GCSS-AF),” noted Dennis Scanlon, Formtek President & COO. “Since that time, the implementation has expanded Company-wide, and now supports over 3,000 active users across dozens of Programs. We are very pleased to have Lockheed Martin Systems Integration – Owego as a customer, and equally pleased that the Formtek | Orion software continues to meet their growing needs.”

About Formtek. Formtek Inc. provides secure and scalable Enterprise Content Management software and implementation services to worldwide customers and partners in manufacturing, aerospace, defence, telecommunication, utility and government. Formtek software provides discriminating features in the areas of security, storage, scalability and integration capability and is readily used for applications of document management, content management, digital asset management and collaboration. Formtek is headquartered in Walnut Creek, CA and has offices throughout North America. For more information, please visit <http://www.formtek.com>.
